### Calls To Washington Does Rev. J. J. Dimon

(Mansfield News)

The Rev. J. J. Dimon has tendered his resignation as rector of Grace Episcopal church of this city, effective May 15 and has accepted the call to the rectory of St. Andrew's Episcopal church in Washington, D. C., upon the duties of which he will enter May 22.

It will be with deep regret that the parishioners and many Mansfield friends of the Rev. Mr. Dimon will learn of his contemplated departure from this city as his rectory here has been marked by a constantly increasing popularity and Rev. Dimon has shown a faculty for making warm friends, not alone in his own church but among residents of the city in general.

The call to St. Andrew's in Washington is a high compliment to his ability as a minister as this church is among the largest and most influential of the nation's capital.

Porter, charging Stinson with malicious destruction of property. It is alleged that Stinson was intoxicated and evidently had more money than he cared for, as when he was opposite the Porter grocery on South Main street, he took a silver dollar from his pocket and threw it through the window. Immediately deciding that he wanted the dollar, he proceeded to kick the door down and start to look for the money. The act was witnessed by Chief Dermody who immediately placed him under arrest. He was locked in jail until Monday morning when he was brought before Mayor Mitchell and entered a plea of guilty to the charge. He stated that he secured his whisky from Mansfield and that no one assisted him in disposing of a gallon of the liquor. He was fined ten dollars and costs and released.

## ITALY

### Projects Ships With 13 Heavy Guns

London, April 18.—Battleships armed with 13 big guns are the latest proposed addition to the navies of the world, and Italy is the nation that will provide them, a naval expert in London asserts.

As is well known, he says, a program of four battleships for Italy has been in the air for some time, so long indeed that there were more than a few who began to discredit the reported intention of the Italian government and to call the proposed ships phantom battleships.

As matter of fact one of the ships, the Dante Alighieri, was laid down last June at Castellamare. She will be of 19,000 tons and will be armed with 10 12-inch guns, arranged in a novel manner. At each end of the ship, on the center line, will be a turret containing three guns, and immediately behind these and firing over them will be a turret of the ordinary pattern, containing two guns.

The three other ships will be of 22,000 tons and their armament will consist of 13 22-inch guns. The new ships will be named Conte di Cavour, Leonardo da Vinci and Giulio Cesare, and their total cost is estimated at \$12,350,000 each, or over \$40,000,000 more than the British Vanguard.

The main armament will be arranged in a manner even more novel than that of the Dante. The arrangement forward will be the same, a triple turret with a twin turret superposed and firing over it. A stern, too, the same arrangement will stand, but instead of being on a lower level as in the case of the Dante the stern guns will have as great a command of fire as those forward.

The three other 12-inch guns remaining to complete the main battery will be mounted in a single turret placed between the two funnels and on the same level as the fore and aft turrets. All the turrets will be on the center line of the ship.

It may be mentioned that Germany is reported to be using the three-gun turret in the battleships Helgoland, Ostfriesland and Thüringen, now being built, but the system was rejected by the superior council of the French navy.

### TO TRY OREGON LAND CASES

Portland, Ore., April 18.—The suits brought by the government against the C. A. Smith Timber Company of Minneapolis, to recover title to Oregon timber lands are to be tried at the session of the federal court which met today. The suits, which have been pending several years, involve approximately 8,000 acres of land, estimated to be worth \$600,000. The basis of the government's contention is that the parties who sold the lands to the Minneapolis company did not have good title.

### "CHANTECLER" PROFITS

(Literary Post.)  
The publishing house of Fasquelle is said to have received orders for 200,000 to 300,000 copies of his 3 francs 50 centimes edition of Chantecler, and the weekly L'Illustration is paying M. Rostrand for the serial rights thereof a sum of which the most conservative reports set at 75,000 francs an act—that is, 300,000 franc in all. Furthermore, the publishing house of Pierre Lefitte has purchased for a sum which it is safer, perhaps, not to specify, but which is admitted to be large, the right to issue a deluxe illustrated edition of Rostrand's complete works. This edition will appear in 70 weekly installments of 20 pages each. To these emoluments may be added the considerable sum paid for serial rights by a London weekly.
